## PROFESSIONAL BIOGRAPHY

Damon Vickers is a New York Times bestselling author whose work explores the relationship between money, value, and civilization. Drawing on decades of experience in global financial markets, he examines how monetary systems shape economies, institutions, culture, and the future of Western civilization.

His writing brings together economics, history, technology, and human behavior to explain the forces transforming the modern world and what they may mean for generations to come.

## SPEAKER BIOGRAPHY

Damon Vickers is a New York Times bestselling author and commentator on money, markets, and civilization. He is a sought-after speaker at conferences, institutions, and private events around the world.

## BOOKS

The Final Bubble · After the Pop · The Day After the Dollar Crashes
